**CE Courses 6 (Six) Hours TQ**

**Sunday, January 8, 2012 - 9am-4pm Westin North Shore Hotel, Wheeling IL Diana Shechtman, OD**

**Challenges in Diagnosing and Managing Posterior Segment Conditions**

The answer to the ever present question: When to hold vs when to refer. As optometrists we often face a host of posterior segment conditions from glaucoma, retinal disease to vitreoretinal anomalies. This course will discuss a number of distinct posterior segment conditions presented in a case-by-case format.

*\*Sponsored by ZeaVision*

**Sunday, January 22, 2012 - 9am-4pm Hyatt Regency O'Hare, Rosemont IL Paul Karpecki, OD**

**A Full Day of Anterior Segment Grand Rounds**

The lecture is a grand-rounds approach to diagnosis and therapeutic management of various anterior segment disease conditions. The course involves the audience in a series of cases that are both common and rare with special emphasis on therapeutic management. Doctors will learn to treat, manage or refer various anterior segment conditions ranging from infectious and inflammatory disease to corneal dystrophies, skin cancers and systemic disease manifestations.

**Sunday, February 12, 2012 - 9am-4pm Oak Lawn Hilton, Oak Lawn IL Mark Dunbar, OD**

**Adventures in Ocular Disease**

Medical Optometry has created incredible opportunities in managing and treating ocular disease. This cutting edge program will feature a series of lectures focusing on the adventures in ocular disease management. Clinical Decisions in Retina will present a potpourri of conditions that are commonly seen in clinical practice with the answers to the questions that we all ask ourselves when seeing these patients. The OCT really has emerged as the Swiss Army Pocket Knife for eye care. This lecture will provide an update on what's happening with imaging technology and how to utilize this important technology in your practice. Finally, interesting cases from the anterior segment will be featured in another exciting chapter of Tales From the Trenches.

**Sunday, February 26, 2012 - 9am-4pm The Chateau, Bloomington IL Pamela Lowe, OD**

**Primary Care Optometry: Update in Best Practices**

This course will update the full scope, primary care doctor on the latest technologies and techniques for treating and managing patients of all ages. A potpourri of topics will include management of clinical entities from anterior to posterior segments while also highlighting the practice management side of incorporating quality care for a healthy practice bottom line.
